Weigh Module Retrofit Measurement Sheet

Vessel and existing module

Equipment ID: _____ Original model / rating: _____
Installed locations and mount orientations: _____
Original drawing number / revision: _____

Top and base mounting geometry

Top plate hole centres A x B: _____ Hole count / diameter: _____
Base plate hole centres A x B: _____ Hole count / diameter: _____
Mark locating offsets, datums and edge clearances on the field sketch.

Heights, movement and ratings

Working stack H: _____ Locked height: _____ Pads / shims: _____
Required travel and direction: _____ Piping restraints: _____
Maximum compression: _____ Uplift: _____ Shear: _____ (kN)

Release review

Compare dimensions with the specific manufacturer drawing and confirm the proposed part drawing against field measurements. Attach photos at each support and show the cable and cell removal envelope.
